Unexpected Challenges of a Gifted Child

Help your child learn about the challenges and advantages of giftedness, including introversion, intuitive thinking, and intense sensitivities. Arm yourself with an understanding of gifted students' unique and often unexpected needs, and set the stage to improve your child's learning, socializing, and happiness at home and at school. Ian will speak from the point of view of a grown-up gifted kid and a former teacher of gifted students.

Please join other parents from Findlay City Schools and Hancock County Schools as Ian Byrd presents: Unexpected Challenges of a Gifted Child. The evening will allow you to connect with others that would like to understand more about the gifted child.
